

Example: Medium Managed Change Template

09

Standard M-size path for managed changes

Use this as the standard path for changes with a defined audience, some workflow/tool/role/process impact, and moderate support needs. M changes should not be overbuilt, but they should include risk, leader support, a right-sized cascade, and reinforcement.

When to use M

- The change has a defined audience and moderate impact.
- There may be multiple phases.
- There is some impact to workflow, visuals, Team Member experience, or role expectations.
- The impacted audience may need to review a job aid, complete training, or attend an educational session.
- There may be up to several deliverables, such as leader cascade, newsletter, huddle guide, FAQ, or resource update.

Required inputs

- Specific impacted audience; note whether audiences are impacted differently.
- When the impact starts and ends, if finite.
- Exactly what is changing and how it differs from current state.
- Why the change is happening.
- Specific action the audience needs to take, including whether it is optional or required.
- Training details if training is involved.
- FAQs for anticipated questions from impacted audiences and leaders.
- Who already knows about the change.
- Links to resources, job aids, FAQs, videos, screenshots, or graphics.

M-size output bundle

Output	Purpose
Strategic change brief	Defines the change, owner, timeline, impact, and success signal.
Core narrative	Gives leaders and impacted audiences a simple anchor.
Light persona map	Clarifies who needs awareness, understanding, enablement, or reinforcement.
Light functional impact scan	Identifies directly impacted functions and support needs.
Risk scan	Identifies likely questions, concerns, and readiness gaps.
Stakeholder map	Confirms reviewers, approvers, and partners.
Leader note	Prepares leaders before impacted audiences hear the change.
Impacted audience message	Explains what is changing, why, what action is needed, and where to get support.

Output	Purpose
FAQ or job aid	Answers common questions and provides practical guidance.
Reinforcement reminder	Sustains adoption after launch.

Timing guide

Timing	Action
18–20 business days before launch	Business partner communications preparation.
16–18 business days before launch	Other business partner review, if needed.
7 business days before first communication; minimum 5	Send content for Communications review if using shared channels.
10–5 business days before launch	Begin communication, depending on impact and readiness.

Drafting prompts

- What is it?
- Who is it for?
- Where can I find it?
- How and when does it impact Team Members?
- What action is required or optional?
- When will my team be informed?
- What resources are available?

Source basis

This knowledge document was generated from the source materials listed below. It is intended to make the custom GPT's reference library cleaner and easier to follow; it is not a substitute for human review.
